

Net Torque

Level 1: Draw in all the forces at the proper locations. For each force tell whether it will rotate the merry-go-round clockwise (-) or counter-clockwise (+). Find all the individual torques and then the net torque. Put your answer in the computer to see if you did everything correctly

Level 2: Draw in all the forces at the proper locations and angles. For each force tell whether it will rotate the merry-go-round clockwise (-) or counter-clockwise (+). Find all the individual torques and then the net torque. Put your answer in the computer to see if you did everything correctly
